

Round wire compression springs are used in countless applications and fulfill / meet the widest range of technical requirements. We calculate the ideal spring design and select the appropriate spring material according to the load and environmental conditions. We can guarantee our customers the highest quality of our products.

**The benefits include:**

- Cost-effective production without tool costs in all dimensions
- Long life and cost-efficiency
- Little weight

Our product range consists of all types of compression springs. We manufacture round and flat wire in all dimensions from 0.3 – 16 mm, tailored to meet our customers' wishes and requirements.
